The war may not help the Republicans in Virginia but it ought to hurt the Democratic whilates for Congress, most of whom, by their votes in Congress, at the last session showed that they were radically wrong on war measures. They voted for the recognition of Cuban independence and for a recognition of the insurgent government. This the News now admits was wrong. They also voted against the war revenue bill, because it did not provide for the free coinage of silver and for the inflatation of the paper currency. In other words they voted against the only measare that has been passed to raise money for carrying on the war.

The very fact that: "After the war, important questions may arise for Congressional action," is the most substantial reason why the House of Representatives shold be Republican and in accord with the Administration. The voice of the Democratic representatives has so far been unwisely used in its effort to shape the war policy, as the intelligent Democratic press, in some particulars, is forced to admit. What reason have the people to bethe next House of Representatives would not be more unwise and partisan than the Democratic representatives of the present

AN ABLE LEADER.

A Deserved Tribute to the Course of President McKinley.

Vilmington "News" (Rep).]

William McKinley, as commander of the land and naval forces of the United States, has displayed consummate good judgment and firmness in dealing with Spain. He has in no way hampered or interfered with the men in the field, all of whom he trusts to the fullest extent -and therein lies the secret of the steady march of victory.

Upon two occasions at least the President has been called upon to exercise his firmness, and he has not hesitated. He is a man of peace, yet he is an able warrior. He longs for the end, yet he does not propose to dally or temporize with the Span-When the end comes-and may it come
